

2008 FARMING INTERNSHIPS
FOUR OPPORTUNITIES

OKANOGAN BIODIVERSITY FARM

Okanogan Valley, North-central Washington.

The intern(s) would work with Michael Pilarski and others to establish a new bio-diverse planting in the Okanogan valley. Permaculture is a main focus. The internship includes farming, wildcrafting medicinals, shipping fresh herbs, and processing and drying herbs.

HOOD RIVER MEDICINAL FARM

Hood River, Oregon, Columbia Gorge.

The intern(s) would work with Aera Sprecht and others to maintain the Riversong Farm medicinal herb garden. Michael Pilarski is around occasionally to help manage the planting. The intern would live and participate in gardening at Rahane, an intentional community overlooking Mt. Hood.

Applicants for interning at Okanogan Biodiversity Farm or the Hood River medicinal farm should contact Michael Pilarski: friendsofthetrees@yahoo.com

CLOUD VIEW ECOFARM

Frenchman Hills, Columbia Basin, Central Washington.

The intern(s) would work with Jim Baird and others to develop the ecofarm. Major work in 2008 includes building a straw-bale community center, planting trees and farming. Cloud View Ecofarm has a large land base to work with - irrigated farmland and sagebrush wild land. Michael Pilarski is involved as a permaculture consultant. The Ecofarm is seeking long-term members as well as interns. Applicants can contact Jim Baird directly: jimmbaird@aol.com

RIVERSONG FARM

Hood River, Oregon, Columbia Gorge.

The intern(s) would work with residents of Riversong Farm, a small intentional community and retreat center. Communal kitchen. Interns camp out in a beautiful, oak forest on the banks of Hood River. The main work is helping on the vegetable farm. Other tasks include working on other community projects and helping in the medicinal herb garden. Applicants contact Iniyat at oneness@gorge.net
